Blue represents Bayer Invigor varieties
 Green represents Pioneer varieties
 Yellow represents Monsanto Dekalb varieties

All plots were swathed at approx 30-40% brown seed
 Pioneer varieties and 72-65 Dekalb were swathed 9 days later than rest
 Seed quality was excellent and samples sent to CGC
 45S51 ranking #11 and #18 were sprayed with Proline, 45S51 ranking #20 was NOT
