

## Purchasing Swede Midge Supplies

To effectively monitor swede midge: population counts must be recorded twice each week for 8 weeks after plant emergence.

### Supplies needed to monitor 1 site

**You will need traps, liners and lures.**

1. Traps: 4 per site – traps last for 8 weeks = 4 traps
2. Liners: 2 /week x 8 weeks x 4 per site = 66 liners
3. Phermone lures: 8 weeks x2 x 4 per site = 8 lures

### Cost of supplies to monitor 1 site

The cost of supplies to monitor one site will be approximately \$175.

### Where to purchase swede midge monitoring supplies

#### **Solida: Integrated Pest Management Supplies**
